

INSTRUCTION MANUAL RECHARGEABLE LED FLASHLIGHT

Thank you for choosing **WELL**. Please read carefully the following instructions and keep them within reach.

Reorder No: TORCH-SPACE-WL

1. Take off the tail cover cap.
(Turn it counter-clockwise.)

2. Put the blue 18650 rechargeable battery into the clear battery case, then insert both into the flashlight (+ end first)

OR

Insert three AAA batteries into the black battery holder (and be sure to make sure each battery is pointed the right direction. The "-" ends should be on the springs) then insert the battery holder into the flashlight (+ end first).

3. Screw the tail cap back on tightly (clockwise).

4. Press the button at the end of the flashlight to turn it on. Then, keep pressing the button to cycle through the different modes (Strong - Medium - Light - Strobe - SOS Signal)

5. To recharge the blue battery, insert the battery into the battery charger. Slide the battery all the way into the charger until the battery is completely in the charger. Plug the charger into an electrical socket. If the battery is in correctly and it's charging, the light on the charger will be red.
