Product Overview

1. LED
2. Housing
3. Adjustable Bracket
4. USB input/output
5. Mode switch
6. Battery Level Indicator (100%/75%/50%/25%)

Operating Instruction

Please read these instructions carefully before use.

Physical injury or property damage may result unless directions are followed. Save these instructions for further reference.

Warning: The LED light is very bright. Do not look directly into the light beam or point the light beam at others.

Operating

- Press the MODE switch to turn on the LED Work Light. It shows a fully-charged battery (all indicators lit up). The number of Battery Indicators lit up shows the amount of charge.
- Press the MODE switch repeatedly to select from the available modes:
High (100% power) → Medium (50% power) → SOS signal (3 short flashes, 3 long flashes, 3 short flashes) → Flash → OFF

Recharging the LED Rechargeable Work Light

The LED Rechargeable Work Light can be charged using the USB cable.

NOTE: Before initial use, charge the LED Rechargeable Work Light for at least 5 hours

Well®

Waste electrical and electronic equipment are a special waste category, collection, storage, transport, treatment and recycling are important because they can avoid environmental pollution and are harmful to health. Submitting waste electrical and electronic equipment to special collection centers makes the waste to be recycled properly and protecting the environment. Do not forget! Each electric appliance that arrives at the landfill, the field, pollutes the environment!
