Using Bluetooth function:

1. Using Bluetooth for the first time, you need to pair your mobile phone with this unit. Activate your mobile phone's Bluetooth function, then search new device. When the mobile phone detects this unit (named as "**Voyager-BT**"), normally the connection will be built-up automatically and doesn't request a password, but if there is a need (special design of some cell phones), please use the password "0000".
2. In the music playing mode, when there is an incoming call, this unit will automatically switch to telephone mode.
3. If Bluetooth media is paused for 13 seconds the player will automatically switch to file model if files are detected.

Bluetooth calling

1. Press  to answer the incoming call, press  and hold for 3 seconds to reject the incoming call.
2. Press  to hang off a call.
3. Press  twice to dial the last number automatically, press  again to cancel the current dialing.
4. Long press the  button to change audio output from your cellphone or car stereo system during calling.
5. When making a call, you can only dial the phone number by your mobile phone, but once the call connected, you can use the hands-free function to enjoy it.

Waste electrical and electronic equipment are a special waste category, collection, storage, transport, treatment and recycling are important because they can avoid environmental pollution and are harmful to health. Submitting waste electrical and electronic equipment to special collection centers makes the waste to be recycled properly and protecting the environment. Do not forget! Each electric appliance that arrives at the landfill, the field, pollutes the environment!
